	9	19	3
Working Experience	Under 4 years	4 – 7 years	Above 7 years
	3	3	26
Home-School Co-operation Staff	1		
Administrative Assistant and IT Technician	3		
Auxiliary Staff	5		
Medium of Instruction	Cantonese (with English and Putonghua curriculum) We have 6 language teachers in total, 2 for each grade teaching English and Putonghua respectively		
Curriculum Arrangement	Our curriculum is based on the Bible and Constructivist Learning Theory. Students' learning takes place through "learning by doing" and "learning through play". Project approach arouses the young children's interest in learning through interacting with their surroundings. They will work together with their teachers to come up with the learning content, collect information, explore senses, experiment and discuss. The activity enables children to cultivate related knowledge in each learning phase and develop their self-learning ability through inquiry learning, expression of opinion and problem solving. The development of life skills and attitudes of lifelong learning are cultivated through pleasurable learning experiences which also lay a solid foundation for the education afterwards.		
Learning / Teaching Approach and Activities	In conjunction of Project Approach and diverse learning experience, we encourage students to obtain authentic learning experience through first hand exploration in order to develop their language, analytical thinking and problem solving skill.		
Learning Assessment	Through authentic assessment, we employ diverse assessment tools such as anecdotal observation, portfolio and children's work to reflect on their learning progress, contributing accordingly to educators in catering for individual needs.		
School Bus Service	Provided by a third-party company with an extensive range of routes serving most parts of Hong Kong Island.
